

# Brief Introduction to Chengdu Medical City

## **I. Basic Condition of Wenjiang District, Chengdu**

As the significant urban cluster of Chengdu, Wenjiang District is located in the core area of Chengdu plain. With superior ecological environment, Wenjiang is reputed as “Golden Wenjiang” and “International Garden City”. It is known as a city full of openness, inclusiveness and vitality. Wenjiang covers an area of 277 km<sup>2</sup> with a permanent resident population of 810,000. It is 16 kms away from Chengdu downtown, 14 kms away from Shuangliu International Airport, 80 kms away from Tianfu International Airport.

Recently, focus on the development position of “Health Industrial Leading Position, International Metropolis New Area for Business, Inhabitation and Travel”, Wenjiang District is striving to build the city of “Tri-Meds”, city of innovation, openness and pioneering, city of convenient transportation, city of superior environment and city of civilization, harmony and happiness and basically form the industrial pattern with new type industry as the underpinning, modern service industry as the guide and urban modern agriculture industry as the foundation. In 2016, the local GDP of Wenjiang reached 42.646

billion Yuan. Wenjiang District is one of the top 100 counties and districts with largest investment potential in Western China, the national service industry comprehensive reform pilot zone and the most beautiful ecological travel destination in China. It is ranked as one of the comprehensive strength top 100 districts in China for three consecutive years and one of the economic comprehensive strength top 10 counties in Sichuan Province for 20 consecutive years.

## **II. Chengdu Medical City Industrial Development Situation**

Chengdu Medical City is the important carrier to develop biomedical industry in Chengdu. It mainly focuses on “Tri-Meds” industry, known as medical science, medical care and medical products. With a planning area of 41.15 km<sup>2</sup>, Chengdu Medical City is divided into zone A and zone B. Covering an area of 30.35 km<sup>2</sup>, Zone A mainly builds pharmaceutical manufacturing cluster, stock quality and returns of development enhancing cluster and industrial supporting areas and meanwhile lays out medical devices and pharmaceutical manufacturing corporations. Covering an area of 10.8 km<sup>2</sup>, Zone B mainly builds medical science and medical care innovation cluster, health life supporting cluster and innovative service center (Sino-Swiss Low Carbon Biological Industry Demonstration Area) and also lays out mass medical science, mass medical care industry and third-party professional

service institution. With the plan of mass Wenjiang District, Wenjiang builds modern service industrial park, ecological tourism park and proactively develops supporting industries including medical health insurance industry, health service industry, nourishing of life and resort industry, health sports industry, hence develops “Tri-Meds” industry, nourishing of life and elderly care industry and one health leading position. Chengdu Medical City is listed as the national pilot area of Marketing Authorization Holder System. It has gathered a large batch of world top 500 and national leading corporations including Kelun Pharmacy, BGI, Haisco Pharmaceutical Group and CapitalBio Corporation. Therefore, Chengdu Medical City is becoming a hot land of investment.
